

DEEP BRAIN STIMULATION & PARKINSON'S DISEASE SUPPORT GROUP

The DBS and Parkinson's disease support group welcomes those who have already had deep brain stimulation surgery and those who may be candidates for future surgery. Previous meetings have included round-table discussions, one-on-one coaching, and emotional support, along with guest speakers who have had attendees participate in various activities, such as boxing for PD and music therapy for PD. Meetings are open to patients, family members, and caregivers.

Meeting Information:
May 25 at 10:30am
June 22 at 10:30am
September 28 at 10:30am
October 26 at 10:30am

Meetings held IN-PERSON at 1 North Guild Conference Room in the Providence Saint Joseph Medical Center Neurology Center

Led by Maryam Kazimi, NP

Maryam is a nurse practitioner who specializes in neurology and movement disorders. She has over 10 years of neurology experience and has been programming deep brain stimulators (DBS) for the treatment of Parkinson's disease (PD) for over 4 years at the Neuroscience Institute at Providence Saint Joseph Medical Center. She works in collaboration with Michael Marvi, MD (neurologist) and Jean-Philippe Langevin, MD (neurosurgeon).

Leeza's Care Connection

Connection matters! Leeza's Care Connection is a place for caregivers to find support, education, and empowerment. Caring for someone you love is hard enough. The good news is that you are not alone. Our support groups are a *safe place* to discuss the stresses, challenges, and rewards of providing care for a loved one. No matter where you are, we're here for you. Welcome to our caregiving community!
